SUMMARY

BTech Computer Science Engineer with a strong interest in project coordination and management. Possesses foundational knowledge of cloud computing and DevOps practices, along with familiarity in tools such as Github, Docker, and CI/CD pipelines. Skilled in task coordination, and time management, with the ability to support project execution and collaborate effectively with cross-functional teams. Eager to contribute to efficient project delivery while continuously developing both technical and management skills.

TECHNICAL SKILLS / TOOLS / METHEDOLOGIES

Cloud Platform: Amazon Web Services (AWS), Microsoft Azure.

Software & Tools: Docker/Kubernetes, Github, Terraform, Jenkins, Microsoft Excel, Microsoft PowerPoint, Jira / Trello.

Methodologies: Agile (Scrum), Kanban.

Professional Attributes: Ability to leverage AI tools to improve productivity and problem-solving, Detail-oriented and organized, Experience using AI tools for research, automation, and documentation, Quick learner with ability to adapt to new technologies.

CORE SKILLS

- Project Coordination
 - Task Tracking & Follow-ups
 - Time Management
 - Team Coordination
 - Problem Solving
 - Documentation (reports, status updates)
-

EDUCATION

BACHELOR OF ENGINEERING - Computer Science Engineering

MIT ADT University, Pune | July 2022-June 2026

- CGPA: 6.73

HIGH SCHOOL - Computer Science

Rural Institute of Technology, Amravati | August 2019-July 2021

- Marks: 78.80%

TECHNICAL PROJECTS (github.com/devmahalle)

Farmnex Land Market:

- FarmNex is an OLX-like marketplace for farm and land listings. It connects sellers who have farmland or agricultural properties with buyers looking to buy or rent. The platform has three main user roles: Admin, Sellers, and Buyers.

Attendance Monitoring System:

- Developed a comprehensive Attendance Monitoring System using React, Node.js, and MongoDB, featuring a high-performance Python-based machine learning service for real-time face recognition and automated attendance tracking via Socket.IO.

AWS Scalable Web App Using Terraform:

- Designed and deployed scalable AWS infrastructure using Terraform including VPC, subnets, security groups, and EC2 web server.

CERTIFICATION

- Microsoft Certified – Azure Fundamentals.
- Pearson – IT Specialist Cloud Computing.
- ILLINOIS – Project Execution and Control.
- Google Cloud Fundamentals: Core Infrastructure.
- AWS Academy Graduate – AWS Academy Cloud Developing.
- AWS Academy Graduate – Cloud Operations – Training Badge.

INTERNSHIPS

- Elephant IT LLP (Pune) – Project Coordinator
(December 2025 – May 2026)
 - HCL Tech (Remote) – LLM Developer
(March 2026 – May 2026)
-
